

# *A Friendly Guide to Remodeling*

108 Elton Hills Lane NW • Rochester, MN 55901  
Office: (507) 282-7698  
[www.RemodelitRight.org](http://www.RemodelitRight.org)

***Remodel it Right by  
Calling a Member of the ...***

*The Rochester Area Builders, Inc. Remodelers Council, established in 1985, is an active, growing council representing contractors and related professionals committed to the remodeling industry and all its diverse facets.*

*Our Council serves both its members and surrounding community through its promotion of professionalism, quality workmanship, service projects and on-going educational opportunities.*

*We encourage our membership to become the recognized leaders in the field of remodeling in the community.*

*Our members specialize in all areas of home improvement.*

*Rochester Area Builders will help you resolve disputes if they should occur as you work with our members.*

# Check Before Hiring a Remodeler

**Do your homework before you have work done on your home. Don't hire just any contractor whose name you find in the Yellow Pages. Use this checklist to select a remodeler who you can trust with your most valuable asset.**

- Does the contractor have a permanent business location and a good reputation with local banks and suppliers?
- How long has the contractor been in business? It usually takes three to five years to establish a financially sound business.
- Is the contractor licensed, as required in Minnesota?
- Have you called the local Better Business Bureau? They can alert you to any outstanding complaints.
- Does the contractor have proof of worker's compensation and general liability insurance? If not, you may be liable for any construction-related accidents on your premises.
- Will the contractor provide you with names of previous customers? Ask if they would hire the same contractor again.
- Have you seen the contractor's work, both completed and in progress? Check for quality of workmanship and materials.
- Are you able to communicate easily with the contractor? Misunderstandings during the course of a project can lead to cost overruns and delays.
- Do you feel comfortable with the contractor? Remember, you will be in close contact with him and will share your house with his crew until the project is completed.
- Will the contractor provide you with a complete and clearly written contract?
