***Remodel it Right by
Calling a Member of the ...***

The Rochester Area Builders, Inc. Remodelers Council, established in 1985, is an active, growing council representing contractors and related professionals committed to the remodeling industry and all its diverse facets.

Our Council serves both its members and surrounding community through its promotion of professionalism, quality workmanship, service projects and on-going educational opportunities.

We encourage our membership to become the recognized leaders in the field of remodeling in the community.

Our members specialize in all areas of home improvement.

Rochester Area Builders will help you resolve disputes if they should occur as you work with our members.

Check Before Hiring a Remodeler

Do your homework before you have work done on your home. Don't hire just any contractor whose name you find in the Yellow Pages. Use this checklist to select a remodeler who you can trust with your most valuable asset.

- Does the contractor have a permanent business location and a good reputation with local banks and suppliers?
- How long has the contractor been in business? It usually takes three to five years to establish a financially sound business.
- Is the contractor licensed, as required in Minnesota?
- Have you called the local Better Business Bureau? They can alert you to any outstanding complaints.
- Does the contractor have proof of worker's compensation and general liability insurance? If not, you may be liable for any construction-related accidents on your premises.
- Will the contractor provide you with names of previous customers?
Ask if they would hire the same contractor again.
- Have you seen the contractor's work, both completed and in progress?
Check for quality of workmanship and materials.
- Are you able to communicate easily with the contractor? Misunderstandings during the course of a project can lead to cost overruns and delays.
- Do you feel comfortable with the contractor? Remember, you will be in close contact with him and will share your house with his crew until the project is completed.
- Will the contractor provide you with a complete and clearly written contract?
